HFP Architects

Newsletter 04 August 2016

See below a brief overview of some of the schemes we are working on at the moment, for more information please like our facebook page where you will find regular updates and features.

Above: Construction is progressing well on 4 new dwellings in Bushey, Hertfordshire.

Left: Photographs of an existing house and outbuilding in Wendover, Buckinghamshire.

We have been appointed to produce a scheme to extend and renovate the existing house and replace the outbuilding with a second dwelling.

Below: An elevation of an extension to the new Oxford Masonic Centre. We have recently been commissioned to produce construction drawings for this scheme and oversee works on site.

In other news, on the 25th September our Associate Amy will be abseiling 200ft down Aylesburys iconic County Hall building to raise money for The British Red Cross.

Please feel free to head to our website or Facebook page if you would like to make a donation. Good luck Amy!
