

The team here at HFP Architects have been very busy over the past month with a lot of exciting new schemes 'on the drawing board' so to speak.

See below a brief overview of some of the schemes we are working on at the moment

Above: A scheme of 23 high spec flats in Greenwich submitted for planning earlier in the month

Above: A window detail in plan, section and elevation for a residential refurbishment scheme in London

Right: Hand drawn sketches of a 'walk through' of a scheme for a new village centre in Hardwick
